

Timothy Chen

UX/UI designer with a strong desire to learn and bring projects to completion. Skilled in identifying problems, creatively finding solutions, and making design decisions backed by user research. With a background performing in symphony orchestras, gained experience communicating in a collaborative environment and delivering aesthetically pleasing products to various audiences.

UX/UI Projects

FlyFishCast

MAR 2020 - FEB 2021

- Applied a user-centered approach to design a mobile app for helping fly anglers discover fishing spots and gain insight on fishing conditions
- Orchestrated competitive analyses, surveys with Google Forms, card sorts with Optimal Workshop, and user interviews to gain research data in order to formulate sitemaps, personas, user flows, and sketch wireframes
- Designed prototypes and a style guide with Figma backed by results analyzed from usability testing

Education

Advanced UX Design Program, CareerFoundry | Online

FEB 2020 - PRESENT

600+ hours of UX Design study and implementation focusing on user psychology, research, information architecture, ideation, and usability testing, which resulted in an end-to-end design of a mobile application

Master's of Music, The Juilliard School | New York, NY

SEP 2016 - MAY 2018

Bachelor's of Music, The Juilliard School | New York, NY

SEP 2012 - MAY 2016

Experience

Louisiana Philharmonic Orchestra | New Orleans, LA

Professional Musician - Section Double Bass

SEP 2019 - PRESENT

- Collaborating with fellow musicians, music directors, and administration to achieve exemplary performances for large audiences in various venues in the greater New Orleans region
- Contributing to educational outreach ranging from showcasing personal instrument to groups of toddlers to performing in Early Explorers and Young People's Concerts
- Maximizing flexibility and adaptability to succeed in high pressure scenarios such as receiving preparation materials the day before a concert

Orvis | Plano, TX

Sales Associate

OCT 2020 - OCT 2021

- Assisting customers by providing individualized attention on the sales floor, over the phone, and behind the register
- Processing shipments, catalog fulfillment, and online orders
- Surpassing sales goals and expectations laid out by the store manager and sales leaders
